Pages 2-4 - Labels. Cut apart and attach these to the spines of your books for quick reference.

Page 5 - Books listed by title.

Page 7 - Books listed by ISBN (number).

Labels for Japanese Books - Cut these apart in very narrow strips and all the same length. Lay a strip of paper with one title on a table. Pull off a piece of scotch tape the same length. Place the tape over the label. Then stick the label to the spine of your book. Identify the book as yours by sticking a return address label to the cover.
